TYPE OF WORK: **New Well** **Reconstruction** **Major Repair** **Abandon Existing Well**

1. Draw a site plan below showing the location of the proposed well and, if applicable, any existing wells. Also show the distance between the well(s) and all property lines, structures, sewage tanks and drain fields, on the subject property **and all adjoining properties** (including those across a street from the subject property). For lots less than one (1) acre in size, the site plan must be in the form of a survey map prepared by a Pennsylvania registered surveyor. All site plans must be drawn to scale. All dimensions must be accurate.

Check here if the site plan is drawn on a separate sheet of paper.

2. Place a stake with the word "Well" written on it on the property at the location in which the well is to be drilled.

Please draw to scale - All dimensions shall be accurate

All newly drilled wells must be capped with a sanitary well cap that meets standard PAS-97 of the Water Systems Council

If checked by the issuing officer, this permit is to drill a new well and to permanently seal an existing well. Failure to properly and permanently seal the existing well in a manner prescribed by law will result in fines and/or other enforcement actions.
